

PARADE

emotions never lie

PARADE

emotions never lie

Residential

Commercial

Emotions never *lie*

Dal vocabolario della lingua italiana, la definizione di graniglia: tritume di marmo e pietra impastato con cemento bianco o colorato che, una volta rassodato, imita il granito.

Le origini dei primi pavimenti in graniglia risalgono agli antichi greci, per poi raggiungere la notorietà anche in Italia già ai tempi dei romani per arrivare nell'800 ai famosi pavimenti in battuto veneziano utilizzati nelle splendide ville venete e nei palazzi più famosi.

È proprio in questo percorso fra storia, ricerca e tecnologia che Parade trae ispirazione per un progetto animato dal rispetto per la materia e le sue origini, ma anche dalla voglia di trasformarlo per dare nuove possibilità di interpretazione del suo spirito vitale.

The dictionary defines cast stone as: crushed marble and stone mixed with white or coloured cement that, once hardened, mimics granite.

The origins of the first cast stone floors date back to the ancient Greeks, before becoming well-known in Italy in Roman times, to eventually reach the famous Venetian battuto floors used in the beautiful villas of Venice and most famous buildings of the 1800's.

It is on this route through history, research and technology that Parade draws inspiration for an animated project from respect for the material and its origins, as well as from a desire to transform it and provide new ways of interpreting its vital spirit.

Parade, coi suoi novanta articoli di fondo che ne compongono la gamma, si colloca in uno scenario molto ampio di utilizzo, da ambienti residenziali a commerciali, per qualsiasi livello di calpestio e da esterno, grazie alla sua componente al contempo estetica e totalmente tecnica. I colori in gamma sono sei, in scala cromatica dalle tonalità del grigio a quelle più morbide del beige, ed i formati sono tre: 120x120 cm, 60x120 cm, 60x60 cm.

With a range made up of ninety basic articles, Parade fits into a wide spectrum of possible uses, from residential and commercial environments, and for any floor or outside surface, thanks to a component that is both aesthetic and totally technical at the same time. There are six colours in the range, in a chromatic scale from grey to a softer beige, in three formats: 120x120 cm, 60x120 cm, 60x60 cm.

Parade è una girandola di emozioni

sempre diverse eppur sempre autentiche: svariate proposte cromatiche accomunate da processi tecnologici complessi, attraverso la miscelazione dei granì, in piena continuità con la tradizione di riferimento.

Il risultato è un effetto di casuale composizione, una superficie dalle mille sfaccettature che restituisce la differente consistenza dei materiali mescolati nel battuto, in una versione contraddistinta da un agglomerato fine - disponibile nelle versioni naturale e levigata - ed una caratterizzata dalla miscelazione di graniglia grossa - disponibile in tre differenti finiture superficiali: naturale, levigata e bocciardata.

Parade is a swirl of emotions.

always different and yet always authentic: offering many hues united by complex technological processes used to mix the grains, continuing from the reference tradition.

The result gives the effect of a random composition, a surface of many facets that reflects the different textures of the materials mixed in the battuto, in one version featuring a fine agglomerate - available in natural and polished versions - and another featuring a mixture of large grains - available in three different surface finishes: natural, smooth and bush-hammered.
