SASSI

#Concrete_gayaforesTiles

Colección de cemento de diseño puro y suave textura que viste espacios habitables, cálidos y sofisticados. Las superficies continuas del modelo Sassi proporcionan un calculado sentido de la moderación, dan forma a los interiores más silenciosos y acogedores, donde refugiamos del ajetreo de la calle, donde alejamos del mundanal ruido.

Una cuidada paleta de colores suaves, Marengo, Gris, Arena, Beige y Blanco, y una gráfica tranquila y compacta permiten que el Sassi perdure en el tiempo, sobreviviendo a los caprichos de la moda y manteniendo una belleza profunda y reflexiva para unos espacios duraderos y eternos.

Las bases se complementan con una decoración de líneas limpias y modernas con materia digital dedicada, donde se combinan franjas paralelas de diferentes anchos que generan un movimiento sereno.

Cement collection of pure design and soft texture that dresses warm and sophisticated living spaces. The continuous surfaces of the SASSI model provide a calculated sense of moderation, give shape to the quietest and most silent and welcoming of interiors, where we can shelter from the hustle and bustle of the street, where we can get away from the madding crowd.

A careful palette of soft colours, Marengo, Grey, Sand, Beige and White, and a quiet and compact graphic that allows SASSI to persist over time, surviving the vagaries of fashion and keeping a deep and reflexive beauty for some lasting and eternal spaces.

The bases are complemented with a clean and modern decoration of dedicated digital material, where parallel strips of different widths are combined to generate a serene movement.
